Mid Century

Mid Century

Mid-century style takes us back to a time of renewal, as post-war America rolled up its sleeves to rebuild, and women rolled up their hair to go dancing. It was a time when new materials were invented, such as plastic, stainless steel, and Lucite, and new

techniques were enthusiastically employed such as steaming and bending wood. Mid-century style puts function over frills, but novelty abounds with fun geometric shapes, organic curves, and soothing, clean lines.
